- A curriculum vitae of no more than 2 pages
- A cover letter telling us how your skills, experience and qualifications make you the best candidate for this opportunity.

Incomplete applications will not be processed.

TERMS OF REFERENCE

About RedR Indonesia

RedR Indonesia is an emerging humanitarian agency working for improving emergency relief. RedR Indonesia is part of the international RedR network of accredited organisations, each sharing a common vision and mission.

Our aims are to provide sufficient, competent and effective relief personnel to the front-line and provide personnel to local and international relief agencies whenever required; to improve and maintain the competence of relief personnel; to cooperate and work with other agencies in maintaining the availability of trained and competent relief personnel; and to increase humanitarian response capacity in Indonesia through providing people with internationally recognised training and access to international experience.

We believe that suffering caused by disasters can be reduced by selecting, training and providing competent and committed personnel to humanitarian programmes across the world.

RedR is also represented in the UK, India, Australia, and Malaysia. For more information, please visit our website <http://www.redr.or.id/>

PROGRAMME BACKGROUND

RedR Indonesia is implementing a project in partnership with UNICEF in strengthening national and sub-national capacity for child-centred emergency preparedness and response (EPR) including in Child Protection, Education, Nutrition, and Water Sanitation & Hygiene (WASH) and sensitizing the sub-national government and partners on Adaptive Social Protection (ASP) System.

Several trainings to strengthen the capacity of humanitarian responders have been carried out both at the national and sub-national levels. This capacity development is also expected to strengthen the

Cluster Coordination in the fields of Child Protection, Education, WASH, and Nutrition. In relation to the field of Child Protection, capacity building activities at the sub-national level are carried out in Aceh Province. Meanwhile in the area of WASH, sub-national capacity buildings activities are held in several provinces, including: Aceh, West Nusa Tenggara, East Nusa Tenggara, Papua, South Sulawesi, and East Java. Currently, RedR Indonesia is searching for a consultancy work with expertise in the Humanitarian Sector or Monitoring, Evaluation and Learning (MEAL) to develop the lessons learned report out of RedR former training participants.

PROGRAMME INDICATOR

- 75 training participants in Education in Emergency at the National level representing 13 provinces, namely: Aceh, West Sumatra, Bengkulu, DKI, DIY, East Java, East Kalimantan, South Sulawesi, Central Sulawesi, North Sulawesi, East Nusa Tenggara, West Nusa Tenggara, North Maluku.
- 30 training participants on Child Protection in Emergency at the National level representing related Government and Non-Government Organizations.
- 30 training participants on Child Protection in Emergency in Aceh Province representing local Government and Non-Government Organizations
- 50 participants of the Water, Sanitation & Hygiene (WASH) in Emergency training at the National level representing related Government and Non-Government Organizations.
- 300 participants of the Water, Sanitation & Hygiene (WASH) in Emergency training at the Sub-National representing Government and Non-Government Organizations in the Provinces of Aceh, West Nusa Tenggara, East Nusa Tenggara, Papua, South Sulawesi, and East Java.
- 25 training participants in Nutrition in Emergency at the National level representing Non-Governmental Organizations.

OBJECTIVE

General purpose:

The objective of the learning consultancy of the Humanitarian Emergency Response trainings is to identify and describe the extent to which these trainings can close or reduce the capacity gaps of each sector in relation to disaster management preparedness.

These objectives are achieved by conducting interviews with selected former training participants, writing, and analysis on several aspects as follows:

- Cluster coordination situation in the fields of Education, Child Protection, WASH, and Nutrition in Emergency in Indonesia.
- The understanding of humanitarian responders on the main principles, such as: humanitarian principles, core commitment for children, and humanitarian standards.
- The understanding of humanitarian responders on the technical skills in the respective sector of Education, Child Protection, WASH and Nutrition in Emergency, including: coordination, information management, monitoring & evaluation, and tools used in each sector.
- The process of implementing the training, related to but not limited to: curriculum, learning modules, delivery methods, and the challenges faced both in online and offline delivery.
- The relevance and contribution of the training to the participant's work field

RESULTS EXPECTED

- Availability of 6 customized reports on the results of learning analysis resulting from interviews and focused group discussions (FGD) with former training participants of:

1. Education in Emergency
 2. Child Protection in Emergency at the National Level,
 3. Child Protection in Emergency at Sub-National Level (Aceh Province)
 4. WASH in Emergency at the National Level
 5. WASH in Emergency at the Sub-National Level (Aceh, West Nusa Tenggara, East Nusa Tenggara, Papua, South Sulawesi, East Java)
 6. Nutrition in Emergency
- The report can be used to support capacity building in the fields of Education, Child Protection, WASH, and Nutrition in emergency through cluster coordination in Indonesia.

PLACE AND DATE

This learning consultancy process will be carried out throughout June - September 2022 , with the following details :

No	Time frame	Activity Planning
1.	27 – 30 June 2022	Conducting interviews, focused group discussions, analysis, and writing reports for the field of Education in Emergency
